

Restaurant

Create a special space
to enhance a meal.

Project a menu while
illuminating with light to make
dishes look more appetizing.

Add a welcome surprise
to the end of your evening.

Project video and lights
to bring food to life.

Arrange spaces creatively so dinner dishes look more appetizing and
pleasing to guests. SpacePlayer creates amazing illumination options
to help you create a more hospitable atmosphere for your guests.

Museum

Display art placard
digitally on the wall.

Project video, text, and
multiple languages to help
engage your visitors.

Allow visitors to
appreciate works of art
in an artistic manner.

Create playful displays
by projecting effects on
works using illumination with
various colors and shapes.

Add entertaining elements to art while providing information about
the artist. Creative ways of displaying art can enhance exhibitions
and give visitors a deeper understanding of the art and artist.

Retail

Let shoppers
see how clothes
look in different
environments such
as the workplace

Project different environments
with the merchandise while
bringing attention to the
apparel on display.

Allow shoppers
to see how clothes
look in social settings.

Project city and nature
images while illuminating
with lights to reproduce
outdoor lighting conditions.

Indoors, outdoors, seasons, time zones....How do the clothes
look in different scenes? The Space Player allows the customer's
imagination to experience the merchandise in various situations.

Product Features

Ideal for spaces that emphasize design.
(2 main unit color choices: white or black)

Installable on lighting tracks
Easy to install, remove or move the unit.

Position-adjustable structure
Projection can cover all downward
directions from the horizontal level.

Compatible with most replay systems
Image input: SD card, HDMI, wireless LAN
*Will not replay movies via Wi-Fi

FAQs

- Q: Will unit installation be possible on an existing lighting track?**

A: The Halo H-Type track is recommended. Dimming control cannot be used.
- Q: Is there an audio output?**

A: The main unit is not equipped with built-in speakers, but the audio output terminal allows connections to an external audio system.
- Q: What types of files are compatible from the SD Card?**

A: The following file formats are accepted:
Stills: jpg/peg, bmp
Video: mov, avi, mp4, mpg/mpeg, wmv
- Q: What is the relationship of projected image size to throw distance and illuminance?**

A: See the table below.

Projected Image Size			Throw Distance	
Type	Height	Width	Min.	Max.
30	0.404	0.646	0.95	2.10
40	0.538	0.862	1.28	2.81
50	0.673	1.077	1.61	3.52
60	0.808	1.292	1.94	4.23
70	0.942	1.508	2.27	4.94
80	1.077	1.723	2.60	5.65
90	1.212	1.939	2.93	6.36
100	1.346	2.154	3.26	7.07

*The sizes above listed may have some variations. Also, when keystone corrections are made, the corrected image size may be smaller than the size specified.

NEW

Space Player

PT-JW130HB000I (main unit: black)

PT-JW130HW000I (main unit: white)

- Unit material: Plastic (white matte finish/black matte finish)
- Brightness: 1,000 lm
- Power Supply: 120 VAC, 1.2A, 50/60Hz (for 120 Duct Use)
- Power consumption: 125W
- Weight: 7.1 lb. (3.2 kg)
- Light source: Laser diode
- Service life: 20,000 hours (50% initial brightness maintained)
- Wireless remote controller supplied
- Panel display method: 1-chip DLP format
- Panel resolution: 1,039,680 pixels (WXGA)
- Recommended image resolution: 1,280 x 800
- Lens: Powered zoom (1 – 2.2 x), Powered focus
- Throw ratio*: 1.5:1 – 3.3:1 (*throw distance: longer screen side)
- Projection area: Down from the horizontal level
- Keystone correction: Horizontal/Vertical/4-point correction (for ±40 degree angles)
- Terminals: HDMI (19-pin), compatible with HDCP
LAN (RJ-45) 1
Compatible with network-connecting PJ Link (class 1)
100 Base-TX, 10 Base-T
- Memory card slot: SD card slot (accepts up to SDHC memory card 32GB) x 1
Main unit will replay still and movie images
- Wireless LAN: IEEE802.11a/b/g/n
Compatible with Miracast wireless transmission technology
- Audio output terminal: M3 stereo mini jack

Caution:

The unit complies with IEC / EN 60825-1 : 2007 safety standards.
Class 2 Laser Product. Do not look into lens during operation.

Universal Lighting Technologies is a
member of the Panasonic Group.

Panasonic

Panasonic now offers the
ability to captivate viewers with
dynamic video, digital signage
and programmable lighting.

Space Player

Lighting now offers new meaning and
creative power to assist you in creating
spaces that astonish and captivate viewers.

$$\text{Lighting} \times \text{Projection} = \text{Dynamic Content}$$

Space Player

Combine lighting and image projection to offer exciting new possibilities for various spaces.

Until now, the role of your lighting equipment
was just to illuminate objects ...

But now you can combine color and motion
to help bring attention to your space.
